Notes

5 'Our Typical Fee' figures are intended to be a useful guide to our pricing (apart from the One-Off Advice which is a fixed fee). The figures exclude VAT. Charging VAT on immigration matters will depend upon where you live and the immigration permission you hold. We will confirm whether VAT (at the current rate of 20%) is payable once you instruct us and we can calculate whether VAT is properly chargeable. These figures are not a set single price for that particular Service as our actual fee will depend upon the specific circumstances of your application. Please select 'Immigration and Citizenship' on the Our Prices page for more information.
